

General topic: Demand and Aircraft Operation costs

- How?

- 1) Data for repairs, parts and overhauling
- 2) Fuel costs
- 3) Duration of each aircraft usage (demand for each aircraft)
- 4) Weather?

⇒ put them together to calculate operating costs

- What? (Questions)

1) How much does Fuel price fluctuations impact cost?

↳ can also include covid's effects on this

↳ comparison between covid and non-covid

2) Impact of covid on company demand and hence the aircraft operating costs

3) Monthly/Seasonal trends of Demand overall

↳ can be broken down per aircraft

↳ can do a covid comparison

4) Monthly/Seasonal trends of cost

↳ can be broken down per aircraft

↳ can do a covid comparison

5) Weather impact on Demand (obvious) and cost ⇒ link back to month/season

↳ demand will affect cost but also the weather will so it is a combined effect.
